Safeguarding is everyone's responsibility. The College has a **specialist safeguarding team** who educate and train our College community as well as deal with concerns as they are raised (by both students and colleagues). There is also an email address (**THINKPINK@lvc.org**) that can be used by everyone (including parents / carers) to report safeguarding matters. This message is sent to the safeguarding team where it is triaged. Parents and carers also have a duty of care regarding safeguarding.

When Can My Child Go to The Support Hub?

Students can drop into the Support Hub at social times (not during lessons) if they have something that they need some support with. Alternatively they might be invited to attend a meeting with a member of staff who is located there. This could also involve parents / carers.

The College also has an email address (**helloyellow@lvc.org**) that can be used to contact colleagues with additional training in **mental health** about concerns.
